

AnteAGE MD® Biosome™ Brightener

1 oz (30 ml) | All Skin Types, All Ages | pH 6

The AnteAGE MD® Biosome™ Brightener contains comprehensive ingredients to brighten and reveal glowing, healthy skin. Tranexamic acid, engineered peptides, and growth factors combine with the addition of biomimetic exosomes to fade discoloration without drying or irritation. AnteAGE MD® Biosome™ Brightener can be used daily with any other AnteAGE MD® products.

APPLICATION

Apply 1-2 pumps to fingertips. Massage into face, neck, chest or other affected areas. Allow skin to fully absorb Brightener before applying additional product.

May be applied twice daily in conjunction with sun protection and avoid unnecessary exposure to direct sun.

BENEFITS

- Promotes an even complexion.
- Improves the appearance of existing pigmentation and blocks future pigmentation from coming to the surface.
- Safe for all Fitzpatrick types.
- Hydroquinone free.
- Ideal for the post-treatment scenario.

KEY INGREDIENTS & FUNCTIONS

Biosome™ Stem Cell Conditioned Media

Physiologically balanced bio-signals released upon culture of bone marrow stem cells help to reduce inflammation, supporting even skin tone, and healthy pigmentation.

Transforming Growth Factor Beta 3 (TGF-b3)

Regulates epidermal and dermal cells in healing skin, modulates inflammation, and reduces scar formation.

Niacinamide (Vitamin B3)

Well-researched benefits include an increase in epidermal ceramide and fatty acid levels, reduction of transepidermal water loss, reduction in unwanted pigmentation, supporting collagen synthesis and decreasing inflammation.

Tranexamic Acid

A synthetic derivative of the amino acid L-Lysine, that has shown promise in reducing unwanted pigmentation via tyrosinase inhibition and reduction in Prostaglandin E2 production. It also acts as a UV induced pigment inhibitor.

Tetrahexyldecyl Ascorbate

A stable, lipid-soluble and highly bioavailable form of Vitamin C that acts as a potent antioxidant, increases collagen production, and reduces unwanted pigmentation by reducing the melanogenesis process.

Ingredients:

Water (Aqua), Caprylic/Capric Triglyceride, Tranexamic Acid, Tetrahexyldecyl Ascorbate, Cetearyl Phosphate, Niacinamide, Acetyl Glucosamine, Squalane, Polyacrylate-13, Human Bone Marrow Stem Cell Conditioned Media, Bisabolol, Oligopeptide-51, Morus Alba Leaf Extract, Camellia Sinensis Leaf Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Lecithin, Helianthus Annuus (Sunflower) Seed Oil, Sodium PCA, Glycerin, Polyisobutene, Polysorbate 20, Dehydroacetic Acid, Benzyl Alcohol, Propanediol, Sodium Hydroxide, Disodium EDTA, Tocopherol, DOTAP, DSPE, DSPE PEG, Sodium Chloride, Disodium Phosphate, Potassium Phosphate, Potassium Chloride, Phosphatidylcholine, Phosphatidylserine, Sphingomyelin, Cholesterol, Mannitol, Trehalose, sh-Oligopeptide-33, sh-Polypeptide-58, sh-Polypeptide-5, sh-Polypeptide-2, sh-Polypeptide-67, sh-Polypeptide-66, sh-Polypeptide-10, sh-Polypeptide-3, sh-Polypeptide-62, sh-Polypeptide-14, sh-Oligopeptide-1
